Continuation of Substance of Interview including description of the general nature of what was discussed: Applicant was notified through email of Examiner's request to cancel claims 1 and 11-14 that were previously withdrawn. A second email request was sent to Applicant to request authorization to amend claims 2 and 15 to prevent any possible 35 USC 101 problems with the claim language. The Examiner suggested incorporating the limitation "the target entity is a first integrated circuitry" into independent claim 2. Applicant responded through email in the affirmative to both requests of the aforementioned Examiner's Amendments. Copies of the authorizations are enclosed in the record.
